

AMBIENTE

The UNEP Year Book 2013 is the 10th edition of the Year Book series. This series presents annual reviews of emerging environmental issues and policy-relevant developments.

(...)

Not all trends are negative: The Year Book underlines that there is growing awareness of environmental issues, along with growth in renewable energy. Nevertheless it underlines the urgency of implementing existing agreements and the outcomes of Rio+20 if the world is to deliver "The Future We Want". (...)
