

If only all the children of the world knew more about each other...

It's now possible, thanks to this naturally elegant collection of books in which children from the 5 continents share their similarities and discover their differences. These digital books are based on a very simple idea: "To share the daily life of children throughout the world, the idea being to use photographs and simple words in order to introduce children to the basic facts about other children's daily life." The sale of each book brings aid money to various projects. (...)
